

Product Specification Brake Fluid, DOT 3 High Boil

DOT 3 High Boil Brake Fluid is designed to meet or exceed the following specifications

**Society of Automotive Engineers Specification J1703
US Federal Motor Vehicle Safety Specification No. 116 DOT 3**

Specifications

Equilibrium Reflux Boiling Point (Dry)	232° C (450° F) Min.
Equilibrium Reflux Boiling Point (Wet)	140° C (284° F) Min.
Water, Weight %	Report
Kinematic Viscosity @ -40° C	1,500 cSt Max.
Kinematic Viscosity @ 100° C	1.5 cSt Min.
pH	7 - 11.5
Corrosion	Pass FMVSS 116
Effect on Rubber	Pass FMVSS 116
Color	Clear to Amber
